Project Name	News Tracker Application
Maximum Marks	4 Marks

News Tracker Application

This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.... as on official websites.

What do they **THINK AND FEEL?**
what really counts
major preoccupations
worries & aspirations

Cloud App Development

Project Description: As our lives are very busy these days, we often feel we need more than 24 hrs. a day to cope up with everything we have in our schedule.

Well, that's not possible but reducing the time by changing the conventional method of reading news can help.

Just tell us what market news you're interested in and get a quick peek for the day

Open web pages with a single tap.

Organize

Organize bookmarks into topics

What do they **HEAR?**
what friends say
what boss say
what influencers say

A bookmarking app for easily following multiple websites and blogs of any topic.

Open site with a single tap

Cloud application development is the process through which a Cloud-based app is built.

Track any website or blog
Choose yourself which news to read, instead of being guided by a robot.
Track as many websites as you want

What do they **SEE?**
environment
friends
what the market offers

Browse quickly and comfortably between different websites on iPhone and iPad

This is better than old conventional newspapers as you can see news anytime and anywhere now

There are four main types of cloud computing: private clouds, public clouds, hybrid clouds, and multiclouds

What do they **SAY AND DO?**
attitude in public appearance
behavior towards others

Skills Required:
IBM Cloud,HTML,Javascript,IBM Cloud Object Storage,Python-Flask,Kubernetes,Docker,IBM DB2,IBM Container Registry

Organize

Style topics with different colors.

PAIN
fears
frustrations
obstacles

GAIN
"wants" / needs
measures of success
obstacles

Complexity and Flexibility

Security and privacy issues

App Store Presence

Revenue Opportunities

Better User Experience
